

Showing GitHub Commit History

As part of your AE2: Data Project Report, you must show your GitHub commit history. Include screenshot(s) of the full history, at the end of your report in the “Appendix” section. To access your history:

1) Log into your GitHub account and choose your project repository

2) Click on the number of commits, show underneath the green “Code” button.

A screenshot of a GitHub repository page for 'p-jab / Pokemon'. The 'Code' tab is selected. At the top right, there are buttons for 'Unwatch', 'Fork', and 'Star'. Below the tabs, it shows 'main' branch, '1 branch', and '0 tags'. A red arrow points to the 'Code' button, which has a dropdown menu open showing 'About', 'Readme', 'GPL-3.0 License', '0 stars', '1 watching', and '0 forks'. On the left, there's a list of files with their commit details. At the bottom right of the commit list, a red circle highlights the text '6 commits' next to a clock icon. The commit list includes:

- .idea: Completed six tasks. (last month)
- .gitignore: Initial commit. (last month)
- LICENSE: Initial commit. (last month)
- README.md: Initial commit. (last month)
- graphs.py: Project complete. (last month)
- main.py: Project complete. (last month)
- pokedex.csv: Project complete. (last month)
- pokemon_database.csv: First commit, before starting. (last month)

3) Your commit history should look like the one below. Capture all of it (might need few screenshots) and put it into the appendix of your report.
